Other relevant information and DD:

\* The diagnostic package offered includes IIF on multiple substrates, various ELISAs and immunoblot. For an optimal choice from this package, a good description of the clinical abnormalities and differential diagnosis is essential.

\* In view of the occurrence of disorders with minimal circulating quantities of antibodies, we recommend that you also submit a biopsy for optimal diagnosis (see our biopsy form).

\* Further information about our diagnostic package can be obtained by telephone:  
Dr. J. Bremer +31-50-3613982
